

Secure Archive for Workforce Data

Want to upgrade to a new workforce management software without loss of data? Ease migration worries with primeARCHIVE. It offers secure, cloud-based archiving and reporting for your historical data. Now, new or existing UKG clients can easily migrate to Workforce Dimensions without losing access to historical data.

Migrate Without Losing Historical Data

EASY ACCESS

Securely archive data from Workforce Central or any other workforce management app.

AUDIT READINESS

Establish long term protection against auditors or compliance issues.

BEST-IN-CLASS SECURITY

Rely on our Tier III+, SOC 2 compliant data center to secure data from cyber attack.

PARTNER COMPATIBILITY

Benefit from +15 year partnership and a UKG award-winning, innovative solution.

PrimeARCHIVE was a perfect fit for a last-minute need to maintain access to historical Workforce Central data. The team was easy to engage with, very responsive, and presented several cost-effective options to meet the needs.

The **primeARCHIVE** team had a ton of legacy Kronos experience and was great at keeping a cohesive process between all three parties.

Since 2003

Our partnership to support workforce software started +15 years ago with Prime Care Technologies and Kronos. It continues to grow under new company identities – primeFORCE and UKG.
